

UNIT 2 – PATTERN & NATURE

EXERCISE 1: SOURCE IMAGES (Nature & Science)

Supplies:

- Computer / USB / Printer

Process:

Gather images for use in the development of exercise two, and this unit's project. Look up naturally occurring patterns, fractals, symmetries, spirals, waves, tessellations, cracks, stripes, etc. Pursue natural phenomena you are interested in (examples: meteorological, biological, botanical, atmospheric, geological, astrological, etc.)

Select Images you are attracted to because of their form, and images you feel you can draw inspiration from for future image construction.

Output:

10+ images:

Seek out high quality images, save a copy to USB, and print a copy to paste into process folio for direct reference.
