

UNIT 2 – PATTERN & NATURE

EXERCISE 2: PATTERN CREATION (ANALOG & Digital)

Supplies:

- Paper / Mark Making Utensils
- Computer / USB / Printer

Process:

Follow along with the in-class demonstrations, showcasing how to construct a pattern (both analog & digital), and create preliminary studies or attempts.

Resources for these processes are archived on class website for reference.

After understanding the process of pattern making, utilize the images collected in exercise 1 to create your own unique pattern.

- You will initially work by hand to create an image.
- Scan the hand made image at 300DPI as a JPG file.
- Divide and re-arrange the image to create a repeating pattern file. *(by hand or software).
- Utilize Photoshop to clean the image up, alter further, add color, etc.
- Save your pattern as a "Defined Pattern", and apply to an 8.5"X11" composition.
- Print pattern in color.

Output:

- Original Hand made image (copies are acceptable)
- Digital Pattern (printed in color on 8.5"X11")
